

Putting the spring back into your step!

Use our handy sizing guide to measure your walking stick or cane:

- Get your stick or cane and place it over the templates below
- Be sure to use the bottom half of your stick, near the existing ferrule
- The template that most closely matches the **width** of your stick is your size
- Note: You should only just be able to see the template outline
- Make a note of the size and order the right size of FlexyFoot!

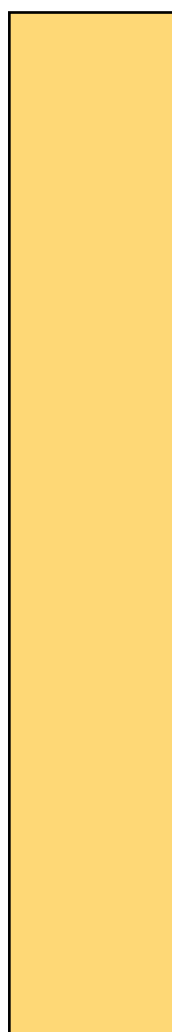

16mm

19mm

22mm

25mm
